## PROJECTS AND EXPERIENCE

### Medicine — <https://medicine-phi.vercel.app/>

Medicine is an online pharmacy online website where a user can order medication and health products and have the medication delivered to them. It significantly reduces the time and stress of a user physically going to a pharmacy and also provides the user with options of different brands to choose from and saves them money.

- React
- Ruby on Rails
- Postgresql
- Redux

### Tech Blog — <https://tech-blog-moryno.vercel.app/>

I created a blog website to help students at Moringa School to blog about their progress, share materials, read articles and use documentation to help them in their studies. This helped solve the dilemma of where to blog their progress and made it easier for the students.

- Reactjs
- Nodejs
- MongoDB

### Event Guide — <https://event-guide-jvquku5fg-moryno.vercel.app/>

Event Guide is a web application that helps users in keeping up to date with major events that are meaningful to them. It cuts the cost of purchasing event guide booklets and it is easily accessible.

- React
- Ruby on Rails
- Postgresql

### Weather App — <https://moryno.github.io/WeatherApp-Project/>

This is a weather web application that helps users to know the weather of any major location in the world and help them to plan their day accordingly.

- HTML/CSS
- JavaScript

## SKILLS

- HTML
- CSS
- JavaScript
- React
- Nodejs
- MongoDB
- Ruby
- SQL

## EDUCATION

**Moringa School, Kenya** — *Software Engineering*

APRIL 2022 - NOVEMBER 2022

Ngong Lane Plaza — *Ngong road*

## CERTIFICATES

**GDSC KIIT** - *GDSC KIIT Chapter*

For Successfully completing  
Front-End Web Development  
Essentials With DevTown

## INTERESTS

- Mobile Development
- UI/UX Design
- Web 3

## REFEREES

Available on request.
